

AIRINCLINE

Designed for trainers who want to create easy, simple and methodical situations in their trainings. The AirIncline is easy to set up, lightweight and portable.

Exercises such as rolling, cartwheel, back handspring, handspring and front flip are easier to learn with the help of our Airlncline. The lines on the AirIncline will stimulate the children to correctly position their hands.

Because of its bounce, the AirIncline is also useful for jumping.
